## 2012 Agricultural Water Quality Registration Notice

The County of San Diego Board of Supervisors has established an annual Agricultural Water Quality fee of \$100 per location for qualifying agricultural businesses.

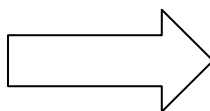

The Department of Agriculture, Weights and Measures enforces stormwater regulations by conducting inspections at nurseries, greenhouses, cemeteries, golf courses, and pest control businesses within the unincorporated areas of San Diego County. The goal of the program is to prevent the discharge of pollutants, such as pesticides, fertilizers, bacteria, and sediment, into our waterways.
